Experience

Demand PDX / Application Engineer

JUL 2018 - SEP 2019, PORTLAND, OR

- Worked in a fast-paced agency development environment.
- Coded Front-end e-commerce components for several large brands including Hanna Andersson, Leatherman, and Adidas Outdoor.
- Leveraged modern Front-end technologies in conjunction with Salesforce Commerce Cloud.
- Delivered streamlined UI/UX and maintainable code that major brands relied on to drive sales results.

KEEN Footwear, Chrome Industries / UI Engineering Lead

MAY 2015 - JUL 2018, PORTLAND, OR

- Coded Front-end features for internal business stakeholders and direct-to-consumer customers.
- Hired Engineering team at KEEN Footwear and Chrome Industries.
- Created a day-to-day content development and data replication structure for multi-brand Global SFCC websites.
- Collaborated with BASIC® Agency to conceptualize, design and execute a custom, adaptive e-commerce experience.

Columbia Sportswear Company / Web Developer I

APR 2014 - APR 2015, BEAVERTON, OR

- Wrote Front-end code within an Agile Scrum development team.
- Utilized HTML, Bootstrap, LESS and Coffeescript to develop responsive e-commerce websites for Columbia Sportswear Company, Mountain Hardwear, SOREL and Montrail.
- Collaborated with a team of developers based internally at Beaverton, Oregon headquarters and internationally in Berlin, Germany.
- Owned code for the 2014 version of the Pro Fishing Gear featured shopping experience.

Freelancer / Web Design & Development

JUL 2004 - JAN 2016, PORTLAND, OR

- Produced responsive websites with HTML, CSS, LESS, Sass, JavaScript, jQuery, PHP, Git and Grunt.
- Utilized XAMPP, Apache, MySQL and Wordpress for hosting.
- Managed every step of the process from gaining new business to personalized design consultations, code development, testing, delivery, billing, support and customer retention.

DealerSpike / Front-End Developer & UI Designer

FEB 2011 - OCT 2012, WILSONVILLE, OR

- Produced HTML & CSS code from Photoshop mockups.
- Led personalized design consultations for multiple powersports dealerships.
- Designed custom wireframes and mockups for powersports clients.
- Improved organic SEO for hundreds of client websites.
- Designed, developed and maintained custom Wordpress themes.

Selliken Systems / Front-End Developer & UI Designer

JUN 2006 - MAY 2009, PORTLAND, OR

- Designed UI/UX for industry-first RMLS authorized Google Maps based HomeQuest property search tool.
- Delivered custom, static websites for subscribers utilizing HTML, CSS and Flash.
- Captured aerial photography, green screen video and property interior photographs for map tool and web content.
